

Bring the Interstate Medical Licensure Compact to YOUR State

Implementation grants available from the FSMB Foundation

The Interstate Medical Licensure Compact is a new licensing pathway for physicians that enables them to gain licensure in multiple states. Eleven states have joined the Compact so far. Soon, physicians in these states will be able apply for multiple licenses faster and more efficiently than ever before.

A new, *expedited* pathway to medical licensure

OPPORTUNITY**

About the Grants

The FSMB Foundation is pleased to begin accepting applications for grants to support projects associated with the Interstate Medical Licensure Compact. Multiple grants will be awarded, from a total fund of \$60,000.

Grants can be used for a wide array of activities. Examples include education of stakeholders interested in the Interstate Medical Licensure Compact, implementation of Compact administrative requirements, staff training, technical enhancements, and more.

Application Information and Deadline

Grant applications are now being accepted. Applications should include the name of the applicant organization, contact information, a narrative to include the purpose and description of the proposed project, a budget estimate (how the funds will be used), and a timeline for completion. Applicants may apply for more than one grant if seeking funding for multiple projects.

Grant applications may be submitted to Kelly Alfred at KAlfred@fsmb.org.

Help us bring health care faster and more efficiently to patients in need – join the Interstate Medical Licensure Compact!

The Federation of State Medical Boards Research and Education Foundation undertakes educational and scientific research projects designed to expand public and medical professional knowledge and awareness of challenges impacting health care and health care regulation.
